Training Leading SAFe®

Leading SAFe®

Learners taking this course are: CEO, Program or Project Manager, Scrum Master, Team Lead, Release Train Engineer, Business Analyst, Agile Coach, CIO, Program Manager, Portfolio Manager, Product Owner, Manager Change.

Level:
Foundational

Duration:
16 hours

Prerequisites:
All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® 5 Agilist (SA) certification exam:

• 5+ years' experience in software development, testing, business analysis, product, or project management
• Experience in Scrum

Course description

During this 16 hours course, attendees learn the importance of mastering Business Agility in order to thrive in the digital age and gain insights they can use to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework® (SAFe®).

The course begins by exploring the SAFe principles, derived from Lean product development, Agile development, DevOps and systems thinking. Following this, the attendees will discuss how to establish Team and Technical Agility and organize around the flow of value. The course then focuses on the importance of adopting a customer-centric mindset and applying Design Thinking as part of the Agile Product Delivery core competency, and provides an opportunity to experience a PI Planning event.

Attendees also gain insights and recommendations for building a Continuous Delivery Pipeline and instilling a DevOps culture. Finally, the attendees will gain an understanding of Lean Portfolio Management and the steps needed for implementing this function in their Enterprise.

Learning Goals

1. Lead the transformation to Business Agility with SAFe

2. Become a Lean-Agile Leader

3. Understand customer needs with Design Thinking

Exam study materials

The exam is designed to measure knowledge and skill related to the job role. We highly recommend candidates use a variety of resources to prepare for this exam including:

- **Course materials** – The course materials are an essential artifact from the course and can be downloaded from the SAFe Community Platform. These materials can be used to refer back to the content that was presented during the class.

- **Study guide** – This comprehensive guide details the job role and all resources related to the exam, including a detailed reading list. Access is available through the Learning Plan in the SAFe Community Platform upon course completion.

- **Practice test** – The practice test is designed to be predictive of success on the certification exam,* and it has the same number of questions, level of difficulty, and time duration. It is part of the Learning Plan in the SAFe Community Platform and can be taken an unlimited number of times at no cost. *This is not the actual exam, and passing it does not guarantee success on the certification exam.

- **Sample Questions** – A web-enabled, flashcard style version of the sample questions can be found online and in the study guide

What you obtain if you get the certification

Becoming a Certified SAFe® Agilist requires an exceptional range of skills and is a career path for many servant leaders. Certification includes:

- Certified SAFe® Agilist PDF certificate
- Certified SAFe® Agilist digital badge to promote your accomplishment online
- One-year membership to the SAFe Community Platform, which includes access to the SP Community of Practice
- Access to Meetup groups and events that connect you with other certified SAFe professionals
- A variety of learning resources to support you during your SAFe journey
